Brand	KBS
Manufacturer part no.	KB10IS-004-3950
Category	Shaft sets cat offline

KBS Tour-V 4-iron – hochwertiges Golfzubehör von Tesi Golf.

Specifications

Torque	2.0 d
Material	Steel
Weight	110 g
Shaft Type	Iron
Flex	S
Tip Diameter	0.355 in
Parallel Tip	0 in

Description

ALREADY PROVEN ON THE PGA TOUR, THE TOUR-V SHAFT OFFERS GOLFERS A LIGHTWEIGHT, LOW SPIN OPTION Like the popular KBS Tour shaft, the KBS Tour-V provides tight shot dispersion. The difference in the KBS Tour-V is its lighter weight and less ball spin for players who prefer it. The KBS Tour-V shaft, the newest addition to the KBS line has already been proven on professional tours with wins worldwide, including the 2013 Open Championship. The Tour-V is available in three flexes (100g R, 110g S, 120g X) and offers up to 20% tighter shot dispersion than other popular shafts on the PGA Tour. "Dispersion with the Tour-V is some of the tightest we have ever seen and it maintains our signature smooth feel at impact. Lighter weight has become more popular and this allows golfers to swing a little easier." commented Kim Braly, Director of R&D and PGA Tour Operations. Up to 20% better shot dispersion than leading PGA TOUR shafts 10% Lighter weight than Tour shaft Mid trajectory
