Description

GETTING IT CLOSE HAS NEVER BEEN SO EASY

The Acer XK Chipper combines the loft of an 8-iron with the weight and lie of a putter. The ultra-wide contoured sole glides across either the rough or the close-cropped apron surrounding the green. Gooseneck, over-the-hosel design increases the effective face area and eliminates the possibility of shanking the ball like with an iron.

Here, only the racket head is offered without configuration options.
