Category	Driver

Shipping from Germany

Specifications

Material	100% Titanium
Hand	for right handed, for left handed
Bias	Neutral, Draw
Club Type	Driver
for Handicap	All, High, Middle, Low

Description

The Acer XV is a versatile and technologically enhanced driver series available in a variety of lofts to suit players of all skill levels. The classic appearance has a lot of functionality from the addition of the Power Chamber sole, Gravity Port and CNC milled crown. The Power Chamber sole enhances energy transfer to the ball while the Gravity Port allows for fine-tuning of swingweight for different shaft weights and

balance points and custom assembly lengths. The Acer XV drivers feature our lightest all-titanium crown ever. It goes through a CNC milling process to remove excessive reduce weight than can be repositioned strategically within the head for optimal performance.

Stock screw is 7 grams and requires 4mm Allen wrench

Please note: without configuration (like added shaft grips etc.) this is only the clubhead!

Club	Loft	Lie	Weight	Face	Volume	Hosel ID
				Angle		
Draw Driver Right Handed	10,5 °	58 d	200 g	2 d Closed	460 cc	0.335 in
Draw Driver Right Handed	12 °	58 d	200 g	2 d Closed	460 cc	0.335 in
Draw Driver Left Handed	10,5 °	58 d	200 g	2 d Closed	460 cc	0.335 in
