Juggernaut Max Draw Titanium Driver (RH) 10.5° - Clubhead

Item number	TMCP1379L-001-1050
Manufacturer part no.	TMCP1379L-001-1050
Category	Driver

MAXIMUM DISTANCE, MAXIMUM FORGIVENESS, MAXIMUM FUN!!!

Specifications

Weight	205 g
Club Type	Wood

Description

FACT: Only 1 out of every 5 golfers maintain a USGA handicap, yet equipment companies design clubs to abide by the Rules of Golf for the minority.

Illegally Longer, Illegally Straighter!

The **Juggernaut Max** was designed for the 4 out of 5 golfers that want to play better by hitting the ball farther and driving the ball straighter. First, the Juggernaut is 12% larger (515cc) than the maximum allowable volume by the USGA, thus allowing it to be a more forgiving head on off-center shots resulting into less time looking for errant balls and speeding up the play of the game.

Most importantly, you'll be able to generate more distance from the tee. The COR/CT or the spring-like effect of the ball coming off the explosive ultra-thin, beta titanium face far exceeds the USGA maximum limits too. Now with an offset hosel for a draw-enhancing ball flight.

Does not conform to the Rules of Golf
