Description

Karma Dual Touch Black/Blue Golf Grip – Reliable Traction in All Weather Conditions
Two-component technology, a soft rubber compound and reliable grip performance!

The **Karma Dual Touch Black/Blue Golf Grip** combines a distinctive black and blue design with a two-component construction, offering a comfortable grip feel and dependable traction on the golf course.

One of the main advantages of this golf grip is its **reliable grip performance, even in unfavorable weather conditions**.

The specially designed two-component structure provides a secure connection between your hands and the golf club, helping you maintain a consistent grip during your swing.

The **new soft rubber compound** offers a pleasant feel in the hands, making the Karma Dual Touch an interesting choice for golfers who value comfort and traction.

With a **core size of 0.600 inches** and a weight of approximately **46 grams**, this grip offers practical specifications for replacing worn golf grips or customizing your clubs.

The combination of a distinctive surface, soft rubber material and modern color design makes the Karma Dual Touch suitable for golfers who want to refresh their equipment without compromising on grip feel.

When choosing your golf grip, always check the specified grip size and select the appropriate thickness for your club, hand size and personal preferences.
