Power Play Friction Face Wedge - Clubhead

Item number	XI436A
Brand	Power Play
Manufacturer part no.	XI436A

Shipping from Germany

Specifications

Material	431 Stainless Steel
Hand	for right handed
Club Type	Wedge
for Handicap	Middle, Low

Description

The Power Play FF wedges combine U-grooves with laser-etching to produce a high friction face for superior results. These also possess higher and more rearward centers of gravity to promote greater stability, more penetrating ball flight and yet plenty of spin. Sole grinds and bounce angle strike a balance to fit a wide array of course conditions. Lastly, the lofts offered complement today's iron sets. Constructed of 431 stainless steel; bendable.

Modell-Nr.	Hand	Club	Loft	Lie	Gewicht	Offset	Bounce	Std. Clublength	Hosel ID
