for Handicap	High, Middle

Description

Having trouble with your regular irons? Try the Power Play Select 5000 Hybrid Iron! The innovative hybrid shape is designed to be as easy to hit as your fairway woods, but with the accuracy you need in irons. The unique smooth sole design reduces the chance of digging into the ground and lowers the center of gravity to ensure that the ball gets out and gets airborne fast. Never hit a #1 iron in your life? Well, now you can! Please note: without configuration (like added shaft grips etc.) this is only the clubhead!
