## Description

The popular TT Lite XL Iron shaft comes in substantially longer lengths to accommodate a wide array of assembly options. The mid- flex design is a great choice for any iron.

The 0.355" taper tip version are used for replacement shafts in a number of name brand irons which require 0.355" shafts such as Ping, Titleist, Mizuno and many more. These shafts will not fit any Hireko branded clubs. Below is a chart of the recommended length for each club.
