Universal shaft extenders for graphite shafts, 8 pieces: +3", for 0.600" butt inner diameter – to lengthen virtually any golf club.

Description

Universal Shaft Extenders for Graphite Shafts (8 pack)

Our universal shaft extender lengthens virtually any golf club with a graphite shaft. Apply epoxy, slide the extender into the shaft butt, let the epoxy cure and cut to length.

Prefer a professional job? We extend your clubs in our workshop in Erfurt, Germany.

- Contents: 8 pieces
- Extends up to +3", total length 5"
- For 0.600" butt, fits most graphite shafts
- Fix with epoxy, then cut to length
