Category	Rubber Golf Grips

Golf Pride CP Plus 4 Golf Grip – high-quality golf accessories from Tesi Golf.

Specifications

Weight	53 g
Grip Size	Midsize
Grip Shape	Round

Description

Golf Pride CP Plus4 golf grip

The **Golf Pride CP Plus4 golf grip** combines high playing comfort with a reliable hold and a pleasantly soft feel. The specially developed surface zones support a secure connection between hands and golf club.

In the upper section, the tacky **Tack Zone** provides comfort and secure contact. The textured **Traction Zone** in the lower section provides extra control and stability during the golf swing.

Plus4 technology for less grip pressure

The integrated **Plus4 technology** enlarges the lower section of the grip. There, the grip profile simulates a build-up with four extra layers of grip tape.

The reduced taper of the golf grip allows both hands to rest more relaxed on the club. This can encourage lighter grip pressure, reduce tension in the hands and support a smoother golf swing.

Available sizes

The Golf Pride CP Plus4 golf grip is available in two sizes:

Standard

The classic grip size for golfers with average-sized hands. Standard offers a balanced combination of control, comfort and direct feedback.

Midsize

The thicker grip version for larger hands or players who prefer a fuller golf grip. A midsize grip can reduce grip pressure and offers a comfortable, calm feel in the hands.

Thanks to Plus4 technology, the lower section feels fuller in both sizes than on a conventional, more tapered golf grip.

Product features

- Pleasantly soft and comfortable grip material
- Tack Zone for secure contact of the upper hand
- Traction Zone for extra tackiness
- Plus4 technology with enlarged lower grip section
- Simulates four extra layers of grip tape
- Reduced taper of the grip profile
