## Description

### Zero Taper 58 Round putter grip – maximum control & consistent feel on the green

The **Zero Taper 58 Round putter grip** is the ideal choice for golfers who value precision, comfort and a consistent stroke feel. Thanks to its modern **parallel design without taper** the grip gives exactly the same feedback in both hands – for more control and consistency on every putt.

The innovative **horseshoe shape with flat front (paddle design)** supports optimum face alignment and improves awareness of the putter head. Combined with the **dimpled surface texture** the grip provides an excellent hold and a stable connection between hands and putter – even in challenging conditions.

The **soft, slightly tacky surface** provides a pleasant feel and reliable hold without being too sticky. This creates a perfect balance of comfort, control and performance.
